NEW INFLATABLE LIGHT TOWER

Now available from ZUMRO, the new Inflatable light tower offers bright, diffused scene lighting and incident identification.

Features:

1. Large area, diffused illumination.
2. Available in 7' and 16' height.
3. Easy and quick deployment.
4. Large diameter, heavy duty, low pressure air tower.
5. Ultra Quiet, high volume Fan keeps tower inflated and cools light bulb at all times.
6. Color coded Banners for clear incident identification.
7. 875 Watt, cage protected bulb.
8. Tie Downs included for windy conditions, tested to 43 mph.
9. Self Contained in fiberglass case, available in various colors.

Shown here inside a Quad Interface Shelter, the 7' Model offers bright and even lighting. The lights reflects against the interior white walls of the Shelter minimizing shadows and highlights.

ZUMRO, Inc. is the only USA based Shelter company offering this product.
