

ZUMRO NEWS

January 1, 2008

NEW PRODUCTS AVAILABLE FOR 2008

Shelter Insulation Kit available for all Shelter Models.

1. Ability to use in any ZUMRO Shelter.
2. Can be used and/or installed in existing Shelters.
3. Does not restrict use of any interior design features.
4. Leaves structure exposed to hang lighting and other accessories.
5. Thin and Lightweight, easy to store, easy to install.
6. High "R" value of 10.3.

Interior HVAC Ducting.

HVAC Ducting can be easily installed in any ZUMRO Shelter. The Duct System simply "clips" to existing Center Curtain Clips (if so equipped) or clips can be installed in the field to accommodate this new feature. For the larger Shelters the Ducting has dual Heater/AC input connections. The input connections are positioned at opposite ends of the Shelter for added capacity and versatility.

New High Output AC Systems.

With that trend continuing to grow, we have designed several new options for the interior of the shelters. We have also added 2 new AC units. These units both cool and heat.

Rigid Door System.

Specifically designed for long term operations the new Rigid Door System allows for normal door operation instead of zippers. The new Door System can "zip" in to any ZUMRO Shelter equipped with the "Connector Door" feature. The system folds for easy storage. (Available Spring 2008) Part #7845

Electrically fired Propane Water Heater.

This new Heater System is "push-button" operated and eliminates the need to manually "bleed" the propane prior to starting the unit. The Water heater is thermostatically controlled with easy front panel operation.

The unit is compact and mounted in a steel enclosure with wheels. Dual water out-put with shut-off valves are mounted on the front and easily accessible.

Output: 180,000 Btu, Part # 9925

New Part Numbers for Insulation System

Part #	Description
7711	Insulation Panel Kit for Model 150 (2 Panels)
7855	Insulation Panel Kit for Model 216 (3 Panels)
8106	Insulation Panel Kit for Model 284 (4 Panels)
7920	Insulation Panel Kit for Model 311 (4 Panels)
8207	Insulation Panel Kit for Model 400 (4 Panels)
8309	Insulation Panel Kit for Model 860 (8 Panels)

New Part Numbers for HVAC Ducting

Part #	Description
7854	Interior HVAC Ducting for Models 150-311
8210	Interior HVAC Ducting for Models 400
8308	Interior HVAC Ducting for Model 860
8355	Interior HVAC Ducting for Quad Connector Shelter

New Part Numbers for other Equipment

Part #	Description
7485	Rigid Door System
9950	AC System 42 Kbtu Cool/Heat on Cart with 2 Ducts
9951	AC System 60 Kbtu Cool/Heat on Cart with 2 Ducts
9952	Propane Water Heater - 180kbtu/Electric Ignition
