50A SPIDER BOX

The ZUMRO 50A Spider Box is a compact, portable power distribution box that is designed to be a fast, easy and economical way to distribute electrical power using a 250 VAC, single-phase power source. With a weatherproof allaluminum enclosure, integrated inlet power cable, and individually GFCI breakered receptacles; our 50A Spider Box is the safest, most convenient way to provide electrical power for field applications ranging from medical equipment to communication gear to infrastructure support.

The ZUMRO 50A Spider Box meets/exceeds UL 1640, NEC, MSHA, OSHA, and NEMA standards for use in all types of environments and applications.

Tech Specs:

- Integrated 20' 50A, 125/250V Inlet Power Cable (CS6369)
- 1x 30A/250V Twist-lock Receptacle (L6-30)
- 4x 20A/125V GFCI Duplex Receptacles
- Full aluminum enclosure
- Integrated carry handle
- NEMA Type 3R Weatherproof for Outdoor Use
- Every output receptacle is individually breakered
