HYDRANT MANIFOLD KIT

The ZUMRO Hydrant Manifold Kit is an all-aluminum block, mounted on all-aluminum legs for access and stability. It runs off a fire hydrant or fire truck and multiple manifolds can be linked together.

Kit includes:

- 6 valved outputs with 2 additional outputs, 8 total
- Toolbox for storage
- Hydrant Wrench
- 2 1/2" NH Fitting to 3/4" GHT Adapter
- Hydrant "Y" Connector
- Two 12" long lead hoses: one yellow, one blue
- O inflate/deflate adapter.
